FCC - MAIL ROOM

**MOTION TO ACCEPT LATE FILING  
AND  
MOTION FOR EXTENSION OF TIME**

Eric R. Hilding herein tenders his consolidated request  
and motion in the above-captioned matter.

1. Pursuant to the ORDER released June 11, 1992 relating  
to Document Production of prior integration pledges to be  
provided to Hughes' counsel by June 18, 1993, Hilding has  
found and forwarded said pledges for proceedings at Auberry  
and Morgan Hill, California, providing partial compliance. 1/

2. At Noon today, Mr. Hilding went to his storage bin  
to continue his hardship burden document search. The expected  
temperature today in Morgan Hill is 100 degrees. After one &  
one half hours of searching through boxes, the heat was no  
longer tolerable.

1/ Located with a number of non-broadcast miscellaneous items  
still stored at his parents' home in the rural Gilroy, CA area.

No. of Copies rec'd

3. Hilding will also be unavailable from late afternoon until late evening to even attempt further search due to a Rotary service club prearranged obligation to attend the final evening ceremonies at the RYLA (Rotary Youth Leadership Awards) camp in the Santa Cruz Mountains. As Chairperson of the local RYLA selection committee, Hilding's appearance at the event in support of the youths he helped to select to attend is of great importance. 2/

4. Hilding has concluded that for the reasons already set forth in this proceeding, he will be unable to fulfill searching in order to complete the June 18th production order. However, as a rational alternative in view of all of the circumstance, Hilding has placed a rush order with the Downtown Copy Center in Washington, D.C. to expedite via Express Mail copies of what Hilding believes to be any possible remaining integration pledges for any previous FCC applications to which he was a party. 3/

---

2/ Ironically, the group of four youths for which Hilding also cast his personal vote include one Hispanic male, one Hispanic female, one Black female and one Caucasian male. Since Hilding personally waited with all of the students and a parent at the bus pick-up to go to camp, and committed to the youth that he would attend the Thursday evening closing activities, Hilding does not believe that breaking his pledge to this diverse mixture of existing and future leaders is appropriate.

3/ Hilding did locate, mixed among non-related documents, a former pledge at Green Acres, California which is being sent to Hughes' counsel under separate cover. He believes the only remaining possible pledges could involve Mount Bullion, Grass Valley, Greenfield and Kings Beach which have been ordered.

5. Since Hilding has already filed a Motion For Summary Decision in favor of grant of a construction permit based solely upon the existing comparative criteria and Standardized Integration Statements filed by both parties, any continued production of documents and/or depositions seems pointless. In an abundance of caution, Hilding does request an extension
